The Cloud-Based File-Sharing and Storage Solution That Balances Security And Ease of Use

Improve your efficiency while increasing your security with easier, trustworthy file sharing and storage. Citrix ShareFile helps businesses of all sizes streamline how they access, send, receive, sync, edit and store large files. As a tool that integrates seamlessly into your workflow and saves time and money, ShareFile also provides unlimited cloud storage that makes transferring, updating, collaborating on and archiving files a swift and easy process for you, your team and your clients.

Key benefits

- Send and receive documents, images, videos and audio files up to 100 GB in size with just a few clicks.

- Enjoy unlimited cloud storage to access and archive files so you no longer need to back up or clean internal servers.

- Protect data with state-of-the-art security while accessing, editing and sharing from any laptop or mobile device.

- Get additional workflow features including third-party software integrations, e-signature, check-in/check-out, Microsoft Outlook integrations and more.

The ease of use you want
A better, quicker way to manage your workflow

Any business sending or receiving hundreds of very large files wastes time using email, file compression software, FTP, burning CDs and other inconvenient methods unable to handle them quickly in one piece. In contrast, with ShareFile, you can send files and folders in under a minute and give clients a way to upload or access files directly on your website. If you're worried about who sees what files or folders, you can manage and track that activity too. Get more done faster, collaborate better and focus on your projects and clients with ShareFile.

Key features:

- Share project files and folders up to 100 GB in size with just a few clicks.
- Use the ShareFile Plugin for Microsoft Outlook to send large files right from your inbox.
- Access, share, edit and request project files on the go with the mobile apps for any iOS, Android, Windows or Blackberry device.

- Streamline work with file check-in/check-out and desktop sync tools, which eliminate the risk of someone using outdated files.
- Get virtually mistake-proof signatures for documents with legally binding e-signature.

The data security you need
Top protection for files sent, received and stored

As a cloud-based file sharing, storage and backup solution, ShareFile offers you secure control in managing large amounts of data internally and externally and improving your collaborative efforts to update other team members at once. Designed to maintain the highest code of ethics and support compliance for most industry regulations anywhere at any time — regardless of what device is used — ShareFile helps protect you and your clients when accessing, sharing, editing and storing files in an easy-to-use, professional and cost-effective way.

"ShareFile really allows us to keep our data secure and streamline our operations. The service makes a very complex project run more smoothly."

Gerard Alolod

Virginia Commonwealth University

"ShareFile is a 'no brainer' for us. It has streamlined operations throughout the whole company, saving not only time, but money as well."

Tanya Lachlan

Deltex Medical

95% of ShareFile customers are likely to recommend it to others.

*Based on a TechValidate survey of 747 users who rated their likelihood to recommend as 7 or higher on a scale of 0 to 10.

Key features:

- Send and receive files securely by email — ShareFile encrypts both the message and all attachments.
- Use the cloud and proven infrastructure to securely back up data and free space on your server.
- Know data is secure with customizable permissions settings, granular security controls, SSL/TLS transfer protocols, up to 256-bit encryption and SSAE 16 Type II audited datacenters.
- Send files securely to recipients even if they do not have a ShareFile account — no downloads, usernames or passwords required for recipients.

Why ShareFile?

Security that supports compliance — ShareFile has more than 25 customizable security settings and high-grade data encryption. You can give employees and clients access to only the files you want them to see.

Simplicity and ease of use —No matter whether your business employs 1 or 1,000, ShareFile offers unlimited live training sessions, 24/7 customer support and white glove onboarding for your staff and clients.

Built for business — ShareFile provides industry-specific solutions for business workflows. It integrates conveniently with email, desktop and mobile tools to add security and easy file sharing for you.
